WEDNESDAY 24 – THURSDAY 25

**NOVEMBER 2021**

**LIVE IN BRUSSELS  
AND ONLINE**

**MORE INFO** [www.cuttingcrimeimpact.eu](http://www.cuttingcrimeimpact.eu)

How can we improve the way we **frame** and **tackle** security problems to make a **real difference**?

How can European security policy be made **meaningful** to **security practitioners** and **citizens**?

How can a human-centred approach improve the **success of solutions**?

Across the EU, how do we **conceptualise** and deliver security?

**Designing Security Futures** attendees will learn about adopting a human-centred innovation approach to researching, defining and developing **practical solutions** to **real problems** facing police, their partners and citizens.

**Designing Security Futures** addresses security policy at the EU, state and local levels with the launch of eight Tools developed by CCI law enforcement partners.

The **Landeskriminalamt Niedersachsen** will present their PATROL and INSIGHT tools.

The **Netherlands National Police** will present their ProHIC tool.

**Greater Manchester Police** will present their Community Connect and ProMIS tools.

**Lisbon Municipal Police** will present their Lisbon community policing tool – Safer Communities.

The **Estonian Police and Border Guard** will present their Building Safer Cities Together tool.

The **Catalan Ministry of Interior** will present their Perception Matters tool.

**Designing Security Futures** will introduce a new and extend European Security Model and launch policy briefings in the areas of Predictive Policing, Community Policing, Crime Prevention through Urban Design & Planning (CP-UDP) and Citizens' feelings of insecurity.

This event will include presentations, discussions and workshops exploring human-centred approaches to innovating security solutions and ways of integrating different strategies across EU contexts.
